### DESCRIPTION OF TEST

The English MA Admission test, for this year, is to be a CBT/MCQ. All questions are of this type and there is no part of the test that could be said to be outside the format. The CBT will test the knowledge of students in key literary events, books, literary theory and the canon of writing. But, in keeping with AUD's English programme that has sought to transcend any overdependence on British literature, the CBT will also include questions from the Indian and subcontinental literary history as well as those which test the capacity of the student to 'read', formulate and interpret.
